

To request a Time Extension (TE) or Alternative Diversion Requirement (ADR), please complete and sign this request sheet and return it to your Office of Local Assistance (OLA) representative at the address below, along with any additional information requested by OLA staff. When all documentation has been received, your OLA representative will work with you to prepare for your appearance before the Board. If you have any questions about this process, please call (916) 341-6199 to be connected to your OLA representative.

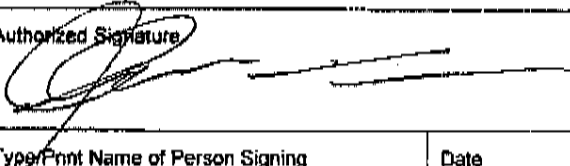

Mail completed documents to:

California Integrated Waste Management Board  
Office of Local Assistance, (MS 25)  
1001 I Street  
PO Box 4025  
Sacramento CA 95812-4025

### General Instructions:

For a Time Extension complete Sections I, II, III-A, IV-A, and V.

For an Alternative Diversion Requirement complete Sections I, II, III-B, IV-B and V.

<b>Section I: Jurisdiction Information and Certification</b> <i>All respondents must complete this section.</i>			
I certify under penalty of perjury that the information in this document is true and correct to the best of my knowledge, and that I am authorized to make this certification on behalf of:			
Jurisdiction Name City of Yucaipa		County San Bernardino	
Authorized Signature 		Title City Manager	
Type/Print Name of Person Signing John Tooker	Date 6/28/05	Phone (909) 797-2489	
Person Completing This Form (please print or type) Jennifer Shankland		Title Director of General Services/City Clerk	
Phone (909) 797-2489	E-mail Address jshankland@yucaipa.org		Fax (909)
Mailing Address 34272 Yucaipa Boulevard	City Yucaipa	State CA	ZIP Code 92399

## Section II – Cover Sheet

**This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.**

### 1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

### 2. Specific Request and Length of Request

Please specify the request desired.

☒ **Time Extension Request**

Specific years requested \_2003, 2004, 2005\_\_\_\_\_

Is this a second request? ☒ No ☐ Yes Specific years requested. \_ \_\_\_\_\_  
(**Note:** Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ **Alternative Diversion Requirement Request (*Not allowed for Regional Agencies*).**

Specific ADR requested \_ \_\_\_\_\_%, for the years \_ \_\_\_\_\_.

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested \_ \_\_\_\_\_%, for the years \_ \_\_\_\_\_.

(**Note:** Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

**Note:** Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

## Section IIIA—TIME EXTENSION

**Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.**

*Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).*

**1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

The City of Yucaipa was able to exceed the mandated 25% diversion rate through 1999. In 2000 the city reached a board approved 60%. For 2001 and 2002 despite declining diversion rates, the city was granted a Good Faith Effort.

An extended period of residential and commercial growth has out-paced the conversion factors and the programs and projections contained in the SRRE.

Multi-family complexes and Mobile Home Parks are currently served by bins. Curbside service in MHP's is often resisted because of the undesirable effects of having heavy collection trucks driving the privately owned streets in the park. Apartment, condominium, and townhome complexes along with mobile home parks frequently do not have bin enclosures sized to accommodate both trash and recycle containers.

Commercial on-site collection currently carries no incentives for recycling. The program relies heavily on voluntary participation. Commercial customers are charged a rate for recycling containers similar to that of solid waste containers. The lack of incentive reduces interest in source separating, and increases contamination of the recyclable commodities.

In 1995 with a board approved diversion rate of 38%, the City of Yucaipa had implemented 23 programs to manage diversion through Source Reduction, Recycling, Composting, Special Waste Handling, Public Education, Policy Incentives, and Facility Recovery. In the years 1999 through 2002, the city implemented 6 new programs, and made adjustments to several existing programs in an effort to keep pace with the residential and commercial growth. Despite these efforts, and disposal generation tonnages less than projections in the SRRE, diversion percentage has declined.

Participation in diversion programs within the commercial sector. The focus of this application is to improve the commercial diversion and further enhance residential efforts:

1. Commercial select load program implementation.
2. Elimination of the 90-gallon trash container
3. Convert to a 60-gallon automated green waste container.
4. Roll-off recycling.
5. Animal waste (manure) diversion.
6. Transformation - Waste-to-Energy.
7. Enhance the curbside bulky item pickup program.
8. Develop a C & D Ordinance
9. Educational Outreach efforts to support new and expanded programs.

**2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.**

The City of Yucaipa is asking for the maximum allowable time extension to expand, enhance, and implement programs necessary to decrease disposal and increase the diversion rate, to develop a C&D ordinance, implement the programs, and to educate the public in the proper use of the available programs. Negotiations with the franchise hauler will be required to expand existing programs and implement new programs. City Council has approved the modifications and implementation of programs listed in this SB1066 TE.

**3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

The City of Yucaipa has implemented all of the programs identified in its SRRE and has, throughout the years, made changes to the programs to better serve the changing environment of the city.

Yucaipa Disposal implemented manual residential recycling collection in 1986.

Commingled residential recycling container size was increased to 32 gallon in 1995

The franchise hauler implemented automated residential solid waste collection in 1996.

Residential Curbside Automated Commingled Recycling collection was implemented in 2002.

Unlimited residential greenwaste collection is provided at no additional cost.

A Construction and Demolition application process was implemented in 2000. The program was expanded in 2001 to include requirements by City of Yucaipa Building and Safety.

The City participates in:

Zero Waste Community programs.

California Beautiful.

DOC Recycling Grants.

County Source Separation at Landfill Sites.

**4. Provide any additional relevant information that supports the request.**

### **Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT**

**Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.**

*Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).*

**1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.**

**2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?**

**3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.**

**4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.**

## Section IV A—PLAN OF CORRECTION

**A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.**

*Attach additional sheets if necessary.*

Residential %		57	Non-residential %		43
PROGRAM TYPE Please use the Board's Program Types. The Program Glossary is online at: <a href="http://www.ciwmb.ca.gov/LGCentral/PARIS/Codes/Reduce.htm">www.ciwmb.ca.gov/LGCentral/PARIS/Codes/Reduce.htm</a>	NEW or EXPAND	DESCRIPTION OF PROGRAM	FUNDING SOURCE	DATE FULLY COMPLETED	ESTIMATED PERCENT DIVERSION
2000-RC-CRB	Expand	The franchise hauler currently offers curbside bulky item pickup. The program is intended to facilitate the collection of items too large to fit into the automated carts. The method of collection will be changed to isolate the divertable items from the disposal items. Improvements to the collection method will minimize the opportunity for contamination of recyclables, and misdirection of divertable items into the landfill.  Where feasible, recycling carts will be placed in enclosures to allow participation in the comingled recycling program.	Franchise Hauler Fees	12/31/05	0.2%
2030-RC-OSP	New	Commercial collection is currently routed for collection efficiency. The franchise hauler will implement a Select Load program to identify commercial customers whos waste characterization contains dry waste and uncontaminated recyclables. Bins identified for Select Load will be included in the commercial recycling routes. These Select Load bins will be re-evaluated frequently to ensure that if the waste characterization changes, they can be removed from the program with minimal contamination of the recyclable commodities.  Direct contact with commercial customers will be used to encourage placement of recycle bins and commercial recycle barrels where space is limited.	Franchise Hauler Fees	12/31/05	2.5%
2090-RC-OTH	Expand	Roll Off Recycling will be expanded in two areas. Permanent accounts will be evaluated for content. Accounts that generate waste materials with divertable materials not contaminated will be routed to the MRF for sorting. Temporary accounts will be evaluated on site, and will be routed to the appropriate recycling facility, MRF for sorting, or disposal site if necessary.	Franchise Hauler Fees	12/31/05	2.0%
3070-CM-OTH	New	The City has a substantial amount of horse property. Animal waste containers are offered, however at a cost that is not attractive to horse owners. As a result, the manure is being placed in the trash containers, and is therefore landfilled. The City Council has approved a reduction in monthly rates, for animal waste containers. The City will now also allow greenwaste to be placed in the animal waste barrel because the processor for the animal waste can accept greenwaste.	Franchise Hauler Fees	12/31/05	2.5%
8000-TR-WTE	New	The franchise hauler will utilize the Commerce Refuse-to-Energy facility for the diversion of qualified waste. Refuse-to-Energy facilities, and the clean generation of electrical power is a viable alternative to traditional solid waste management.	Franchise Hauler Fees	12/31/05	2.0%

		Total Estimated Diversion Percent From New and/or Expanded Programs			9.2 %
		Current Diversion Rate Percent From Latest Annual Report			41 %
		Total Planned Diversion Percent Estimated			50.2 %
PROGRAMS SUPPORTING DIVERSION ACTIVITIES					
PROGRAM TYPE		NEW or EXPANDED	DESCRIPTION OF PROGRAM		DATE FULLY COMPLETED
5010-ED-PRN		Expand	Public education through newspaper, City website, fliers and newsletters. Utilizing printed media, information will be presented to announce new programs, and reenforce participation in existing and expanded programs.		12/31/05
5020-ED-OUT		Expand	Public education through Chamber of Commerce, workshops, and personal visits to businesses. Targeting the commercial sector, representatives of the franchise hauler will participate in mixers and workshops to inform business owners and operators of their vital role in assisting the City in reaching the required minimum diversion goal. A more personal outreach will be made to businesses that are not members of local associations.		12/31/05
6020-PI-ORD		NEW	Ordinances and Code Enforcement. City Council has approved a Construction, Demolition and Inert Material diversion program that includes an ordinance. The ordinance is modeled after successful programs in use in other cities. The C&D Ordinance will be partially dependant on the source seperation program at the San Bernardino County San T. Landfill.		12/31/05
2000-RC-CRB		New	City is working with the hauler to develop an educational outreach program for the residents to prepare them for the changes that will be taking place in the size of their trash containers. Over the past few years, City Council has elected to apply the annual rate increases only to the 60 and 90 gallon customers to encourage the larger volume users to reduce their container size for economic reasons thus reducing solid waste generation. This approach has not produced the outcome expected, so City Council has approved the elimination of the 90 gallon container. 90 gallon customers will have their barrels replaced with 60 gallon barrels in January 2006. The outreach program will include visitations to residents who believe that they cannot manage with a 60 gallon trash container to work with them to improve recycling efforts and determine the needs of the residents.		12/31/05
3000-CM-RCG		New	The City will also provide educational outreach to residents about the new program convertomg to automated 60-gallon green waste containers from manual containers.		12/31/05

## Section IV B—GOAL ACHIEVEMENT

**Goal Achievement describes the activities the jurisdiction will use to achieve the ADR.**

## **Section V – PARIS**

**Office of Local Assistance staff will be reviewing your Jurisdiction's Planning Annual Report Information System (PARIS) database printout as part of the evaluation of your request. Should the Jurisdiction have updates or revisions to the program implementation from the latest Annual Report submitted to the Board, please attach to the application the Jurisdiction's PARIS database printout showing updates or revisions.**

*Contact your Office of Local Assistance Representative at (916) 341-6199 for a copy of PARIS, or go to the Board's website at [www.ciwmb.ca.gov/LGCentral/PARIS/](http://www.ciwmb.ca.gov/LGCentral/PARIS/).*
